

## A Romantic Marriage.

It has just been learned that Miss Amy Crocker, of Sacramento, and Porter Ashe, of San Francisco, were privately married at Martinez December 16th, by Rev. Dr. Abernethy. The fact of the marriage was not known to the family of the young lady until last Friday. The groom resides in San Francisco, and is the son of the late Dr. R. P. Ashe, formerly of San Joaquin. Miss Crocker recently gave a party at Sacramento at which the groom was present, but the marriage was a profound secret. She went to Stockton a few days ago to visit friends. The engagement of the gentleman and lady was an open secret, and it was a few days ago privately told that the nuptial ceremonies would take place early in February, and that Mrs. Crocker had no objection to the wedding. A desire for romance is the motive attributed to the parties. Miss Crocker is one of the wealthiest young ladies, in her own right, on the Pacific coast.

## Railroad Fares to New Orleans.

In anticipation of the early opening for traffic of the Southern Pacific Railroad from San Francisco, Cal., via El Paso, San Antonio and Houston, Texas, to New Orleans, La., the following rates of passage from San Francisco to New Orleans have been announced: For first-class tickets, with stop-over privileges, \$98 50; second-class tickets for a continuous trip, \$80; third-class tickets for a continuous trip, \$55. The following named rates are now in effect for passage by rail from New Orleans, La., to New York City, N. Y.: For first-class tickets, unlimited, according to route, \$53 50 to \$45 35; first-class tickets, limited and for continuous trip, all routes, \$38; second-class tickets, limited and for continuous trip, all routes, \$25 25; third-class tickets, limited and for continuous trip, all routes, \$24 50.

The seating of John T. Caine, as Delegate in Congress for the unexpired term of George Q. Cannon, causes rejoicing in the Mormon Church. No election was held to fill the unexpired term, and by what way he was seated is a mystery to the Liberal party, which opposed him for the regular term. It is making a singular precedent to seat a man in Congress without credentials, and without being elected. It is regarded by the Liberals of Utah as another triumph of the Mormons, over the Government, and gives the polygamists great cause for rejoicing.

The Democrats are already commencing to use the long rope gained by their success in November, to hang themselves, and will be about as badly beaten at next election as the Republicans were at last. The people all over the country are voting more independently each coming year, so that no party, unless right and honest, can win the day, and this is better for the country. Republican leaders beat themselves, because they failed to suit the members of their party, who preferred defeat to boss tyranny and machine rule in conventions.

Some months ago mention was made of a prospecting expedition being started for the upper waters of the Yukon river, Alaska, under the lead of Edward Schieffelin, a veteran miner. Information is now received that at a point 1,500 miles up the Yukon, at the confluence of the Tonnanna river, rich and extensive gravel deposits have been discovered, averaging \$1 50 to the pan. The country is difficult of access, the Yukon river being closed by ice until about June, while the trip from Sitka is about as bad as a Siberian journey.

The Sacramento Record-Union claims that the charter of the Central Pacific allows that corporation to charge ten cents per mile for passengers, and as that charter has not yet either expired or been repealed or amended by Congress, neither California nor Nevada can reduce fares by legislation.

A bill introduced in the House by Valentine (R.) of Nebraska, concerning swamp lands, provides that the law which now controls the possession and reclamation of such lands in Arkansas be extended to swamp lands in Kansas, Nebraska, Colorado and Nevada.

Some are free to say that the Asylum contractors' claim before the Legislature is a "steal." The Board of Commissioners allowed the claim, and the contractors ask for its payment. If these men wanted to perpetrate a "steal," they would ask for \$20,000, and place about \$10,000 in the hands of the "lobby."

Senator Hoar has won his fight in Massachusetts, and for six years to come will hold his seat in the United States Senate.

## FUN.

Wholly uncalled for—A dead letter. The weight to wealth—1,800 pounds to the ton.

Dolls for little girls, dolmans for their big sisters.

Whisky and tobacco are both strong enough to carry a tax.

The politician never acknowledges that he is out of politics until every one else knows it.

You can never rely upon an echo. Does not Shakespeare speak of the cave where Echo lies.

Mean men are the best at guessing conundrums. This comes from the fact that they hate to give anything up.

Kleptomania is a very stubborn and far-reaching disease. Its ravages can only be arrested by a policeman.

When a man gives you his hand, he does it out of friendship. When he gives you his foot, it is quite another matter.

Judge—"What I cannot understand is how you could kill a man with a single blow." Culpit—"Shall I show you how?"

A wag speaking of a friend whom he suspected of living altogether beyond his means, observed that he believed he "would owe several thousand dollars after all his debts were paid."

Butcher—"For dinner? Yes, ma'am. Nice quarter of lamb, ma'am." Mrs. Turtledove (a bride of two weeks)—"Oh, but there are only two of us. Don't you think an eighth would do as well?"

President Garfield's physicians say they would rather wait one hundred years for the amount of their claims than to cut them down one half and receive the money at once. No doubt the Government can stand it if they can.

"Uncle John," said little Emily, "do you know that a baby that was fed on elephant's milk gained twenty pounds in one week?" "Nonsense! impossible!" exclaimed Uncle John; and then he asked, "Whose baby was it?" "The elephant's," said the little girl.

## Telephonic Developments.

The latest development of the telephone is the production of an instrument which, without the aid of a battery, transmits and reproduces sounds, loud, clear and distinct, at long and short distances. It consists of a simple helix surrounding a soft iron core, having no magnetic connection, and acted upon by a thin strip of iron connected with the north or south pole of one or more magnets. The strip vibrates in unison with the transmitting or receiving diaphragm by means of a felt cushion or other connecting medium. This construction, it is said, constitutes a magneto-electric machine or generator, whereby the voice itself produces the electric current by which the sounds are transmitted to and reproduced by a similar or corresponding instrument at the other end of the line, there being no current in the helix or on the line, excepting that so produced, and no other magnetism in the soft iron core inside the former.

We regret to learn that the local press of Carson view with alarm the increase of scarlet fever in the Capital. If any cases exist prompt action should be taken to prevent their spread. Less loathsome, perhaps, than small pox, the scarlet fever is more fatal, and where it does not wholly destroy leaves its terrible unhealed wounds on mind or body. In comparison to this monster of devastation the circular saw is a harmless plaything, the mad dog a gentle pet, the cyclone a whispering zephyr, and the battle field a haven of safety. It is the incarnation of all bodily ailments ballasted with one-third lunacy.

Senator Fair is announced to leave for Washington within the course of two weeks, and the further announcement is made that his stay there will be brief. If his stay is to be brief there is not much need of his putting in an appearance. We doubt if Senator Fair ever again takes his seat in the U. S. Senate Chamber. His health is said to be bad, and it is reported that Mr. Flood is very anxious to have him resign.

The Gazette says "the present Legislature waste nearly as much time as they make good use of. All the business necessary to be transacted at this session could be accomplished in 30 days. Is there a member in either branch of that honorable body with nerve enough to offer a resolution providing for an adjournment prior to March 5th?"

Reform is needed in the management of the Orphans' Home. The Virginia Chronicle figures that each orphan costs \$285 per year, or an average of 78 cents per day. It seems to cost more to take care of the little children than it does to maintain either the prisoners or insane patients.

One amendment to the Constitution should be that of permitting any county to adopt either the salary or the fee system, or both of them. That would avoid any question of conflict with the present clause prohibiting special legislation.

Before the salary law was passed every officer except the Sheriff, Clerk and Assessor, was paid a salary in addition to certain fees. The salary law simply grouped them together.

Governor Butler has announced that under no circumstances will he be a candidate for the United States Senate.

## A Historic Flag of Truce.

The last flag of truce in the war of the rebellion was carried by Colonel R. M. Sims from the Confederate General John B. Gordon to General Sheridan. The cessation of hostilities brought about by this truce immediately preceded the surrender at Appomattox Court-house. The flag borne by Colonel Sims was simply a white towel, and after the surrender it disappeared entirely, and was for a time forgotten in the excitement attending the last events of the great conflict. Within the present year Colonel Sims wrote an account of the last truce of the war, which was printed in the Charleston News and Courier, and the publication of this narrative has interested many persons in the search for the missing flag of truce, which, it was believed, was retained by somebody as a valuable relic of the rebellion. General Sheridan was asked for information concerning the towel, but neither he nor members of his staff whom he consulted remembered anything about it. However, the towel was at last found. It is in the possession of Mrs. Elizabeth C. Custer, widow of the late General Custer, to whom it was presented by General Sheridan at the close of the war. General Charles A. Woodruff remembered this incident, although General Sheridan had forgotten it. Mrs. Custer recently wrote a letter to Colonel Sims, in which she stated that the improvised flag had been treasured by her with other war relics. "It has," she added, "never been exhibited or used in any way that could offend the most sensitive spirit. General Custer taught me early in my married life to look upon our unfortunate war as too sorely sad to admit of any feeling save that of sorrow and regret that one brother's hand should be compelled to be raised against another." So that the last flag of truce more than served its purpose.

## Annexing Idaho to Nevada.

Senator Jones and Congressman Cassidy, of Nevada, are conferring on the advisability of endeavoring to secure congressional action for the annexation of a portion of Idaho Territory to the State of Nevada. One good result of such an annexation would be to break up the political power now held by the Mormons in Idaho; another would be to add to the resources of the State of Nevada, and insure the permanent existence of that State. A great deal of the territory which it is proposed to annex contains rich mines and large areas of agricultural and grazing lands. Much of it is nearer the State capital than localities in the present State of Nevada, and far more accessible. There can be no possible objection to such an annexation, except on the part of the Mormons. As it stands now, the Mormons have two Delegates in Congress—one from Utah and one from Idaho. They frequently control the Legislature, and have controlled the Governor. Congressman Cassidy told a Washington reporter that he wanted two counties in California annexed to Nevada, but Berry came back at him with the threat to introduce a bill to gobble up the whole of Nevada and annex it to California. Are not these gentlemen taking liberties with the property of sovereign States? The people of the counties of Mono and Inyo desire annexation to the State of Nevada, but Congress has not the power to make the transfer. It can only be done by consent of the California Legislature, and it is hardly likely that such consent will ever be given.—S. F. Post.
